

# MacOS Sierra

Setup your Hosted Email mailbox in Apple Mail on MacOS Sierra inn 4 steps

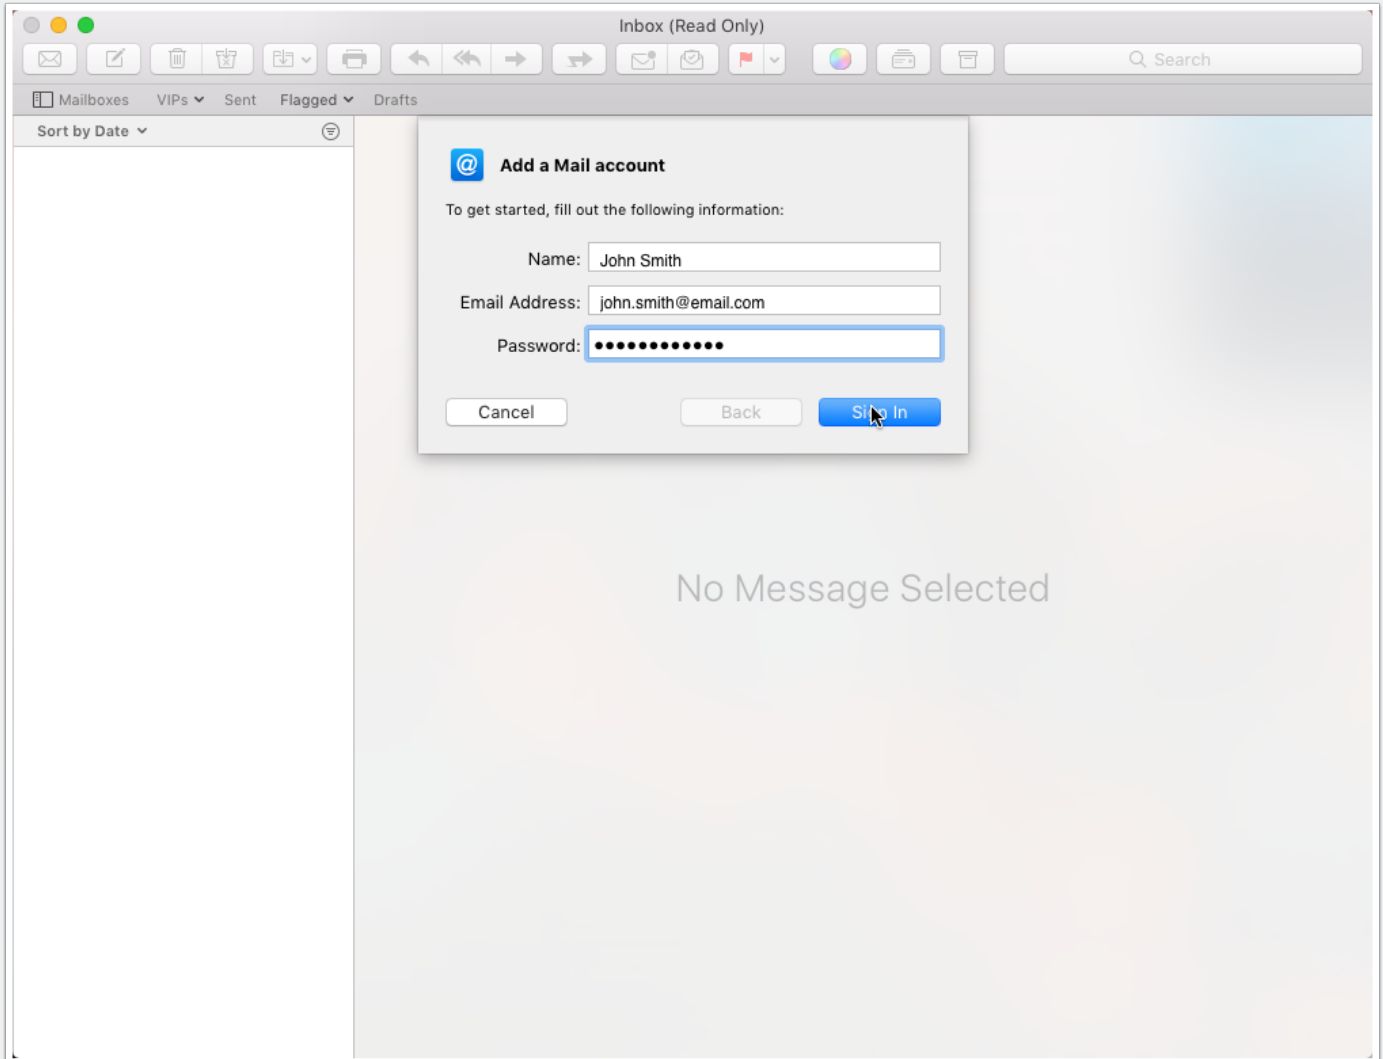

1

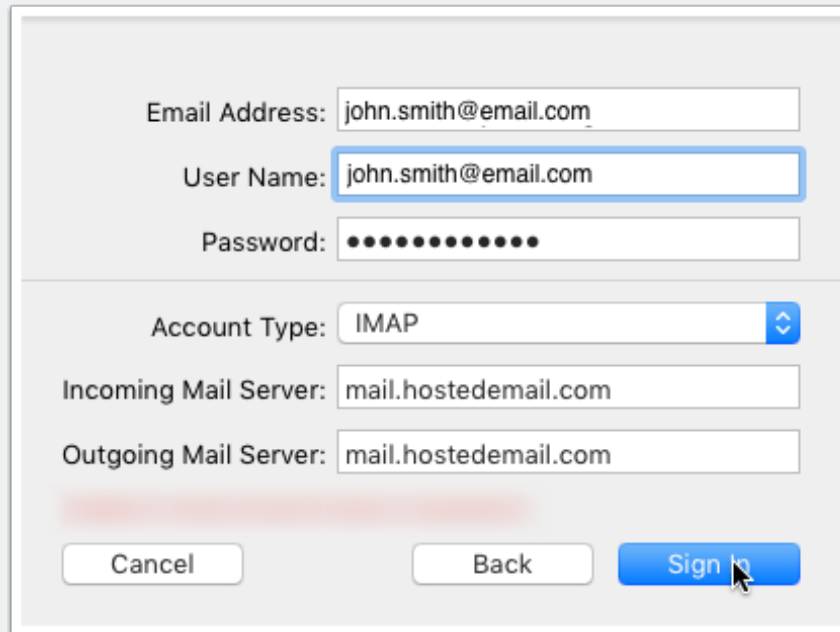

## 2

## 3

## 4

The screenshot shows the 'Add New Mail Account' dialog box in MacOS Sierra. The fields are filled with the following information:

- Email Address: john.smith@email.com
- User Name: john.smith@email.com
- Password: (masked with 12 dots)
- Account Type: IMAP
- Incoming Mail Server: mail.hostedemail.com
- Outgoing Mail Server: mail.hostedemail.com

At the bottom, there are three buttons: 'Cancel', 'Back', and 'Sign In'. A mouse cursor is hovering over the 'Sign In' button.
